Job-: Supervisor in the handy craft center

I'm Sangitha Lama, Working as a supervisor in a handy craft product center, since last January 2011. I am very much thankful to sunrise children INC Australia. That has been great help for me to get this job. I'm 32. But I didn't have any kind of job till this age just working around the house to house as a house worker in different houses for helping cleaning, and cooking. But now I get a chance to have a job in the handicraft production center... Now I have a good income for my family, I have school-going kids, but do not have a husband.. He had passed away before 10 years. Since then I was struggling with my 2 kids for their better future and study but now after getting 6 months sewing training I got a chance to have a supervisor job.

Sunrise gave us English language classes for adults also where I got a chance to learn English too. It is wonderful support for my jobs as many orders and designs are written in English so it is easy to read and understand for me. I'm very much interested to learn the English so now I often use to see the English serial to catch the English words and tenses.

Finally I like to thank to all those who are helping us to develop our skills to better improve our lives. We like to thank through our inner heart for those Godly people for us for being our supporters.
